

OmniUpdate Training Tuesday

Converting Table Transformation Snippets into Components

Presented By:
Barbara McQuillan
Training Supervisor

Zoom Event # **767-984-773**

Audio will be heard on your computer speakers.

If you do not have working computer speakers,
call 1-408-792-6300.

Enter event number and attendee ID
or press # if no attendee ID.

Webcast will start at the top of the hour.

AGENDA

- What is a Component?
- What Snippet types **SHOULD NOT** be converted into Components?
- How to convert Snippets into Components
- Considerations for Snippets with Select Lists

WHAT IS A COMPONENT?

Components

- Newest type of Reusable Content
- When you want to reuse structure/styling, but keep content unique
- Uses form fields to prompt for content
- Customize content on each page
- Changes to the Component's base code **WILL** be reflected across all pages with the Component
 - If you add new fields to a component, the existing instances of that component will not yet have inputs for those fields

SNIPPET TYPES THAT SHOULD NOT BE CONVERTED INTO COMPONENTS

- Snippets with variable numbers of rows
 - e.g. Accordions or Tabs
- Snippets that nest with variable numbers of child snippets
 - e.g. Slider with individual Slides inside
- Snippets that nest with variable options for child snippets
 - e.g. Cards with options of text only OR text with image OR text with video
 - These could possibly be created as a separate Component

HOW TO CONVERT SNIPPETS INTO COMPONENTS

1. Copy Snippet Source Code and Paste into a New Component
2. Create Component Form Elements
3. Insert Form Input into Component's Source Code
4. Set Properties
5. Launch!

CONSIDERATIONS FOR SNIPPETS WITH SELECT LISTS

- Select list options must be reproduced with the component
- Refer to the snippet itself for the name of the JSON

```
<td data-select-list="majors">Accounting</td>
```

- Refer to `/_resources/ou/editor/select-lists/json` for the list of options

NEXT TRAINING TUESDAY

Next month's Training Tuesday will be held on **FEBRUARY 26TH**.

We'll be covering the topic of **COMPONENTS INSIDE AND OUT**.

Be sure to visit the OCN or Support Site
for further details!
